## OIL BROKER UNDER ARREST FOR FALSE STATEMENT MADE

Attorney General's Department Takes Action on Misleading Rumors.  
PUNISHABLE OFFENCE SPREAD LYING REPORT Solicitor People Returns From Investigating Calgary Cases.

The circulation of rumors, without foundation, that oil has been struck, is likely to be followed by prosecution for false pretences.  
The Attorney-General's department has taken the stand that the circulation of stories for the purpose of creating fluctuations in the prices of oil stock is as much within the meaning of the section of the criminal code dealing with false pretences as are fraudulent representations made by the agent at the time of making a sale. One Calgary broker is already under arrest, charged with this offence. This broker announced on his bulletin board a statement that a certain well had struck oil. On investigation the report proved to be absolutely untrue, the officials of the company denying the statement and disclaiming any connection with the false report.

The matter is being followed up and persons responsible for setting out the rumor will be prosecuted. It is also likely that the officials of companies who are affected by these false reports may take action for damages, as their stock suffers in the eyes of the public when a false statement is issued and has to be denied.  
Since the establishment of an oil stock exchange the efforts of wild cutters have been curtailed, but in a number of the Calgary hotel lobbies sharp practice is still being attempted. Some one will set out a rumor that oil has been, or is about to be, struck and will make a pretence at buying all the shares of a certain company that can be got. This sets the game going and in a very short time the stock has soared much above the normal level. Then the men who are responsible for the rumor unload at a profit all they have, and make themselves scarce.

A. E. P. Papp, solicitor in the Attorney-General's department, has just returned from Calgary, where he has been investigating the doubtful methods of certain operators in oil stock. In several cases prosecutions have been entered and in all cases prosecution has been attended with a conviction. In some instances the parties pleading guilty.

## ATTORNEY GENERAL TO ADDRESS FARMERS OF EDSON DISTRICT

Hon. C. W. Cross, attorney-general for Alberta, has consented to address a gathering of farmers of the Edson district at a picnic at Shining Bank, on July 1st.

Hon. C. W. Mitchell, provincial treasurer, is in the south and will not be back till the end of the week.

Hon. Wilfrid Garfield, minister of municipal affairs, will be the representative of the Alberta government at the convention of Canadian Municipalities, which is to be held at Sherbrook, Que., on July 4, 5 and 6. The convention was held last year at Saskatoon.

## SAYS WHEAT IS TWO FEET HIGH IN ACADIA DISTRICT

"I never saw the crops looking so well," declared J. A. McCall, member for Acadia, who was in the city this morning. Mr. McCall states that the grain crops in the Acadia district are twenty-four inches high and that there is a thick stand. There have been frequent showers in that district during the growing season and appearances are good for a bumper crop. The stock in the district is also very promising, there being an abundance of good pasture.

## MOVEMENT FROM STATES BECOMES MORE PRONOUNCED

Canadian Pacific Land Agents in United States Meet at Chicago.

GOOD CROP THIS YEAR WILL INCREASE TIDE American Farmers Get Enthusiastic Over Specially Favorable Terms Now Offered

The United States representatives of the natural resources (land) department of the Canadian Pacific have just had a convention at the Congress hotel, Chicago, under the presidency of J. S. Dennis, assistant to the president of the system, and the most interesting thing reported is that the good crops which are promised in most of the

## Evelyn Thaw in Paris for Divorce Says Single Girl Has Best Time Tango Dancing Causes Furore

Evelyn Thaw and her little son, Russell, photographed on the Olympic, which landed them in London last week.

from it forever.

"I might marry again," she went on, "but I think a single girl can have a better time, and I am determined to enjoy myself."

It is understood that the ease with which Mrs. Clarence Mackay and other American women have obtained

divorces here is the inspiration of Mrs. Thaw's plan to lay her troubles before the French courts.  
She is having a jolly time in Paris. Her impromptu language and hesitations with Jack Clifford at the fashionable restaurants are creating a furore.

of the first year, and other unusual concessions had greatly endeavored those who are eager for such inducements, which cannot probably now be obtained in any part of the U.S.A.  
Norman S. Rankin, chief publicity commissioner of the company, who attended the meeting, sent a telegram to the local office of the natural resources department, this morning containing the above information.

## BOMB THROWN IS CAUSE OF BREAK AGAINST SERBS!

Troops Find Considerable Difficulty in Quelling Rioting in Sarajevo.

MARTIAL LAW IN THE CITY AND THE DISTRICT

Sequel to the Assassination of Archduke Francis Ferdinand and Wife.

Sarajevo, June 29.—A bomb thrown by a youth standing on the corner of the main street of the Bosnian capital, was the signal this morning for a serious anti-Serbian outbreak, which the troops found difficult in quelling.

The only damage done by the bomb was a slight injury to a passing Muslim, but the rouser element seized on the incident as an excuse to start a demonstration. They were joined by a number of Croat students and the crowd passed along the streets shouting the windows of Serbian shops, clubs, schools and houses and looting the interiors.

The manifestos proceeded to parade the street with a portrait of Emperor Francis Joseph at their head. They sang the Austrian national anthem, and attacked everything Serbian until they were confronted by an overwhelming number of soldiers.

All the chief points of the city were immediately occupied by troops.

Martial law was proclaimed both in the city and the district of Sarajevo in consequence of the assassination yesterday of Archduke Franz Ferdinand and the Duchess of Hohenberg.  
Vienna, June 29.—The opinion has gained ground in authoritative circles here that the future of Austria-Hungary, now more than ever depends upon the health of the venerable Emperor Francis Joseph.

It was pointed out in high political circles that if the emperor is permitted to reign only a few years more everything may continue as usual and Archduke Francis Ferdinand's death will have little lasting material effect upon the foreign or domestic affairs of the dual monarchy.

It was argued that should a youthful and inexperienced ruler like the Archduke Charles Francis, son of the late Archduke Otto, suddenly be called upon to take the reins of government, a period of anxiety might supervene.

For story of the assassination see page 2.

## VILLA RETURNS TO TORREON DELAYING MARCH TO CAPITAL

EL PASO, TEXAS, June 29.—Lack of ammunition has blocked General Villa's march toward Mexico City. The first of his victory last week at Zacatecas, has returned to Torreon, bringing his entire army with him. The relations of the commander with General Carranza, in the opinion of agents here today, unquestionably caused the abandonment of the campaign.

The much-discussed Carranza-Villa estrangement has reached a breaking point, they asserted.  
At Zacatecas Villa shot away practically all the cargo of the Antilla which landed at Tampico, according to his representatives here. Carranza's men, however, declare the Antilla did not get the Antilla ammunition, which they declare is still in Monterrey.

Villa's return here yesterday was received here today as ominous by both factions here.

## TWENTY-ONE MEN HURT BY AN EXPLOSION IN A MILWAUKEE TUNNEL

Milwaukee, Wis., June 29.—The lives of twenty-five laboring men were imperiled this afternoon while working on a new intake water tunnel 2,600 feet from shore under Lake Michigan, when an explosion, said to be due to an accumulation of gas, supposed to have been ignited by a spark from a drill, occurred.  
Twenty-one of the workmen were injured, some being seriously burned. Reports from the hospital where the injured men were taken are to the effect that all of the injured will recover.

## FORTY-NINE SEATS SAFE FOR THEM, IS CLAIM OF LIBERALS

They Place Twenty-Three in Doubt—Conservatives Declare That Seventy Places are Certainly Theirs and That Thirty-one are in the Balance—Warm Fight in All Ridings

Toronto, June 29.—Reports from the cities of Ontario indicate that a very heavy vote is being polled today. The members of the cabinet, except the premier himself, are in their own constituencies today to vote or to exert their personal influence in their own behalf. Reame is the only one, outside of Toronto anyway, whose re-election seems to be at all in doubt.  
N. W. Rowell will receive returns in Woodstock until 3.30 p.m., which he will take the train for Toronto.

Toronto, June 29.—Although showers are general throughout the province of Ontario today, and the weather is raw and disagreeable, a splendid attendance marked the opening of the polling booths in what promises to be one of the most interesting provincial elections ever held. The response of the electorate during the morning, despite the inclemency of the weather, is regarded by both political parties as an evidence that the vote polled will be large and representative. Leaders of the two parties are enthusiastic with regard to the result and the organization developed to get the vote out are leaving nothing undone to make the contest a thorough test of public opinion.

The campaign, which was of about three weeks duration, was unique in the history of the province. The liberal opposition, under the direction of N. W. Rowell, practically restricted its claim on the electorate to the one issue, that the bare of the province should be abolished, the club license cancelled, and the sale of intoxicants confined to the liquor stores. No criticism of the government was offered on either grounds. Credit was conferred on Sir James Whitney and Sir Adam

Liberal says that of 111 seats, 49 are safely liberal, 29 are conservative and 22 in doubt.

Last year of 164 seats, liberals had 19 seats, not counting Mr. Stubbins, the labor representative.  
Although all the city conservatives candidates expressed themselves as being confident that they would have fully as large majorities as they had at the last election, the fight in the different ridings of Toronto developed into a very warm one early today. A heavy vote is being polled.

## CARMEN DAILY IS CALLED TO STAND IN POLICE PROBE

This Morning She Appeared Before the Magistrate on a Charge of Selling Liquor Without a License, the Prosecution Being Undertaken by the Attorney General's Department.

The police investigation was resumed at two o'clock this afternoon, before Hon. Justice Scott.

Up to date the typewritten transcript of the evidence given at the inquiry has amounted to over thirteen hundred pages and fills two volumes, each of two inches in thickness.  
The first witness called was Carmen Daily, one of the principle figures of the investigation, who had signed an affidavit that William Wheeler asked her for \$100 "protection" money.

This morning Daily appeared before the magistrate on a charge of selling liquor without a license. The prosecution was undertaken at the instance of the attorney general's department, Daily being arrested in Saskatoon by the mounted police. She is out on bail, having been remanded for eight days on \$100 bail.

She was represented by J. A. McCaffery.  
J. Walker Turner (counsel), who is also alleged to have demanded protection money, was present in court.

Chief Detective Nicholson of the attorney general's department, and two of his men, were in attendance, having been subpoenaed to give evidence.

There was again a large crowd present. Among the solicitors in attendance were O. M. Bigger, K.C., chief counsel in the inquiry; A. F. Edging, K.C., assisting Mr. Bigger; Joseph A. Clarke, H. H. Robertson representing ex-Chief Justice, C. F. Newell (representing former Chief Carpenter), J. A. McCaffery (representing Carmen Daily), and others.

Carmen Daily, a rather pretty woman of a southern type, appeared in court neatly dressed in black with a black hat trimmed with pink flowers. She stated she had left Edmonton about 14 days ago, she said. May Smith lived with her for some time.  
Mr. Bigger had a talk with William Wheeler. Wheeler, with a man who said he was William Wheeler, he was driven in an auto by 'Gene Barrett'.  
What did Wheeler say? It was so long ago that I could not recall his exact words. He said something about houses—running, and he said they were running under protection. He said he could arrange protection.  
How much? You were supposed to pay \$100 per month.  
To whom? He did not say; but said he would be back in a day or two. He said he was the official fixer.  
Was there anything said about when it was to be paid? He said he would call again in a day or two.  
What did you say? I asked for a receipt and he looked at me.  
Did he come back? Yes, about two days after. I did not have \$100 and I did not admit it. As far as he knew, I was not.  
Did you talk with anyone else? I spoke to several people about it; it was a job all over Edmonton.  
Who said they paid it? So many. Added they had paid it. They came and asked me if I was paying it. They said they were surprised that I was not paying for them.  
To you know Walker Turner? Yes, he came to my house one night and asked about my paying protection. He said I must be paying it. The ladies were being allowed to run. He said a dark man with a hooked nose might come to see me.  
Did he turn up? No.  
Did you ever talk with Mr. Mohr of the Canadian National Publishing company about paying protection? No, but I did to one of his clerks. He said I ought to be paying protection. I said "I am willing to do it." He said he would take me over to the Nanny Wink and Spirit company.  
Did you go? No.  
Did you know the man's name? No, it was Lee something.  
Did you speak to the man at the store? Oh, the old man was just looking at me. Witness: With a man who said he was William Wheeler.

(Continued on Page Three)

# Imperial Couple Murdered After One Trial Fails

Archduke Francis Ferdinand and Duchess of Hohenberg Meet Terrible End While Triumphantly Making Annual Visit to Two Annexed Provinces—Deed Carefully Planned and Bomb Throwers Glad at Result.

Sarajevo, June 29.—The heir to the Austro-Hungarian throne, Archduke Francis Ferdinand, and his morganatic wife, the Duchess of Hohenberg, were shot to death yesterday, while driving through the streets of this city, the Bosnian capital. A youthful Serbian student fired the shots that ended their lives and added another to the long list of terrible tragedies that have darkened the reign of Emperor Francis Joseph.

First a bomb was thrown at the automobile in which they were driving to the town hall, but being forewarned of a possible attempt against his life, the archduke was waiting at Count Vojvod-Waldeck and Col. Merz.

On their return from the town hall, the archduke and the duchess were driving to the hospital when the Servian, Gavrilo Princip, darted at the car and poured a fusillade of bullets into it. His aim was true, for the archduke and his wife fell over, mortally wounded. At the time the governor of the city who escaped uninjured, was with them. The bodies of the murdered couple collapsed across him and protected him from stray bullets.

The governor shouted to the chauffeur to rush to the palace at top speed. Physicians were in prompt attendance, but their services were useless, as both were dead before the palace was reached.

Until the emperor's wishes are known, the bodies will lie in state at the palace here.

The town is in a state of consternation. There is mourning everywhere, with black draped flags and streamers on all public buildings. The president has sent a message to the emperor, expressing the grief and horror of the whole population at the ruthless crime and asserting the majesty of the people's unshakable devotion to the ruling house.

The bomb was filled with nails and lead filings and the explosion was very violent. The iron shutters on many shops were pierced by flying fragments, and iron railings were shattered. In all about a score of persons were injured, several of them being women and children.

## Appalling List of Tragedies

The final tragedy which has come to the house of Hapsburg is the culmination of the grief and horror of the whole population at the ruthless crime and asserting the majesty of the people's unshakable devotion to the ruling house.

The bomb was filled with nails and lead filings and the explosion was very violent. The iron shutters on many shops were pierced by flying fragments, and iron railings were shattered. In all about a score of persons were injured, several of them being women and children.

In 1858, the emperor's wife, who was the daughter of Maximilian Joseph, Duke of Bavaria, was stabbed to death at Geneva by a mad Italian anarchist. They had been estranged for many years, but the emperor had never ceased to show a deep affection for her.

Less than 10 years before, the emperor's only son, Crown Prince Rudolph, a man of ability and promise, upon whom the emperor had pinned their hopes, met death in a mysterious which has never been cleared. On January 30, 1889, his body was found in a hunting lodge at Mayerling, not far from Vienna. Beside his body lay that of the Baroness Marie Vetsera.

## Present Heir's Education

Archduke Charles Francis, known popularly as Karl, who becomes heir to the Austrian throne, owing to the morganatic birth of Archduke Francis Ferdinand's children, is being carefully educated with a view to fitting him for the position of emperor. He differs from all other members of the imperial family, inasmuch as he is the

first member of the imperial house to have been educated in the public schools of Vienna, where he mixed with scholars of every class of society. He associated with workingmen and trades people and joined them in their games, thus getting into closer touch with the aspirations and ideals of the people than any of the other Hapsburgs. He is a first lieutenant in the Austrian navy.

The assassination took place while the archduke and princess were making an apparently triumphal progress through the city on their annual visit to the annexed provinces of Bosnia and Herzegovina.

The archduke was hit full in the face and the princess was shot through the abdomen and throat. The wounds proved fatal in a few minutes after reaching the palace.

It is deliberately engineered. These responsible for the assassination took care that it should prove effective, as there were two assassins, the first armed with a bomb and the latter with a revolver. The bomb was thrown at the royal automobile as it was proceeding to the town hall, where a reception was to be held, but the shot was not the deadly missile coming and warded it off with his arm.

It fell outside the car and exploded, slightly wounding two side-departments in a second car, and half a dozen spectators.

It was on the return of the procession that the tragedy was added to the long list of those that have darkened the pages of the recent history of the Hapsburgs. As the royal automobile reached a prominent point in the route of the palace, an eighth grade student, Gavrilo Princip, sprang out of the crowd and poured a fusillade of bullets from an automatic pistol at the archduke and princess. Both fell mortally wounded.

Princip and a fellow conspirator, a conspirator named Gabrinovic, barely escaped lynching by the infuriated spectators and were finally rescued by police who had been forbidden their protection. Both men are natives of the annexed provinces of Herzegovina.

The first attempt against the archduke occurred just outside the girls' high school. The archduke's car had been re-started after a brief pause for an inspection of the building, when Gabrinovic hurled his bomb. This was so successfully warded off by the archduke that it fell beneath the following car, the occupants of which, Count Von Hoy-Waldeck and Col. Merz, were struck by shrapnel.

"An Amazing Indignity." Archduke Francis Ferdinand stopped his car, and making inquiries as to their injuries and learning what aid he could, continued his journey to the town hall. There the burgomaster began the customary address, but the archduke sharply interrupted and snapped out: "Here Burgomaster, we have come here to pay you a visit and bombs have been thrown at us. This is altogether an amazing indignity."

After a pause, the archduke said: "Now you may speak."

On leaving the hall, the archduke and his wife announced their intention of visiting the wounded members of their suite at the hospital on their way back to the palace. They were actually bound on their mission of mercy, when, at the corner of Rudolfstrasse and Franz Josefstrasse, Princip opened his deadly fusillade.

A bullet struck the archduke in the face. The princess was wounded in the abdomen and another bullet struck her in the throat, severing her artery. She fell unconscious across her husband's knee. At the same moment the archduke sank to the floor of the car.

After his unsuccessful attempt to blow up the royal visitors, Gabrinovic was expected of being in custody in an effort to escape, but witnesses of his crime plucked after him and seized him. A few yards from the scene of the shooting an unexploded bomb was found, which, it is suspected, was

## ASSASSINATED ARCHDUKE FRANCIS FERDINAND.

thrown away by an accomplice after he had shot the princess. Princip's attack on both seemed to glory in their exploit. Princip said he had studied for a time at Belgrade. He declared he had long intended to kill some eminent person, from nationalist motives. He was awaiting the archduke at a point where he knew the automobile would approach, street turning into Franz Josefstrasse. The presence of the princess in the car caused him to hesitate, but only for a moment. Then his nerve returned and he emptied his pistol at the imperial pair. He denied that he had any accomplices. Princip is 19 years of age.

Nedelko Gabrinovic is 21. He told police that he had obtained the bomb from anarchists at Belgrade, whose names he did not know. He similarly denied that he had accomplices and treated the whole tragedy with cynical indifference.

From the latest particulars it appears that the assassination occurred with such rapidity that many persons close by the scene did not even hear the shot. The street is very narrow and the assassin was able to fire at close range.

Anti-Serbian demonstrations began last night. The crowds knelt in the streets and sang the national anthem. The mayor of Sarajevo issued a proclamation to the inhabitants of the city denouncing the crime and declaring that by the confessions of the assassins it was shown all beyond doubt that the bomb thrown at the archduke's car came from Belgrade.

It is said after the attempt with the bomb near the girls' high school, the duchess tried to dissuade the archduke from venturing in the car again. To satisfy her fears, M. Potokovic, governor of Bosnia, said: "It is all over. We have not more than one murderer in the city," whereupon the archduke decided to go on.

At a meeting of the provincial diet last night, the president of the chamber expressed his profound sorrow and indignation over the outrages and paid a glowing tribute to the archduke and the duchess. He also declared his confidence in the devotion to the emperor and the ruling house.

## BOYS WITH SKELETON KEYS COMMIT SERIES OF BAFFLING THEFTS

Regina, June 29.—Complicity in a series of burglaries which have baffled the Regina police for two months was confessed yesterday by two boys all under 16 years of age. It is understood that the boys have admitted that they were in the robbery of the Ideal Bakery, the armory of the 25th battery, the Rex grocery and Jackson's drugstore.

The general holding of stolen signals all along the chain of lakes at noon yesterday gave mariners ample time to require for the boats and other boats too far out to obtain the port signals were notified by wireless what weather they might expect.

On Lake Superior this force of the lake was most severely felt.

New York city's death rate is decreasing.

Had Time to Prepare

Child Burned to Death

Maple Creek, Sask., June 29.—The three-year-old child of Mr. and Mrs. George Lesty, of Golden Prairie, 23 miles west of here, was burned to death yesterday when a fire which broke out in the house destroyed their home.

## LAKE SUPERIOR IS SWEPT BY FIERCE NORTHWEST GALE

Two Steamers Badly Damaged and Barge Aground Have Been Reported.

ALL OTHER STEAMERS BELIEVED TO BE SAFE

Wind Reached Velocity of Ninety Miles Per Hour in Some Places.

Duluth, Minn., June 29.—A north-west gale which has blown at the rate of between 40 and 60 miles an hour since early Saturday morning, so far has resulted in a large amount of damage. Two other steamers badly damaged and two men fatally injured, according to present available returns.

The barge, George H. Hartnell, left at anchor outside the Duluth entry by the steamer Samuel H. Kirby, was carried hard aground a few blocks from the entry and is lying bradside to the sea. Her prow had crushed in a collision with the steamer Harvey Brown.

The steamer Matsuda, in trying to make Superior entry yesterday morning about 10 o'clock, struck the pier, dislodging her steering apparatus and throwing out her rudder and axle. She was badly damaged but succeeded in making the harbor after some excellent work by the tug America and Goulard.

Woman Carried Ashore

The steamer Harvey Brown left the harbor late in the afternoon in an attempt to get a line to the barge Hartnell, which was calling for help. After two hours' maneuvering, a line was secured, only to break a minute later when the ships came together, damaging the bow of the Hartnell and badly crushing her bow and the bow of the Harvey Brown. Both the Matsuda and Hartnell were up-bound late Saturday forenoon.

Had Time to Prepare

Detritus June 29.—Reports from the important Great Lakes stations late this night are that although Lake Superior and Michigan were swept yesterday and last night by a gale which in some localities reached a velocity of 40 miles an hour, all boats in port or are reported safe in port or in sheltered harbors.

The general holding of stolen signals all along the chain of lakes at noon yesterday gave mariners ample time to require for the boats and other boats too far out to obtain the port signals were notified by wireless what weather they might expect.

On Lake Superior this force of the lake was most severely felt.

New York city's death rate is decreasing.

Had Time to Prepare

Five cents spent for **WRIGLEY'S SPEARMINT** provides a toothsome, beneficial treat for the whole family. No fear of after effects, for it sweetens the breath, soothes the throat, cleanses the mouth and teeth of food particles, and agreeably aids digestion by increasing the flow of saliva.

Every Package Tightly Sealed in the new air-tight, impurity-proof, waxed wrapper that keeps this delicious, wholesome mint-flavored goody fresh and clean for you.

It's big value—the most enjoyment possible to buy for 5 cents.

It is as good as men, machines and money can make it, in the most up-to-date, sanitary chewing gum factories in the world.

Be SURE it's **WRIGLEY'S**

Chew it after every meal

## BRITAIN FIELD FOR EXPORT OF LIQUOR PRODUCTS

Trade Commissioner Says that Canada Should Secure Larger Share.

GREAT OPPORTUNITIES FOR FRUIT AS WELL

Unlimited Market for Extending Sales—Big Improvement in Packing.

Ottawa, June 29.—That Canada could export to Great Britain a large amount of brewery and distillery products is the statement made in a report to the trade and commerce committee by Mr. J. R. Roy, Canadian trade commissioner at Birmingham, this week.

Mr. Roy states that English brewers and distillers do an extensive import business of which the dominion should secure a large amount. Of £21,248,725 worth of wheat and barley imported by Great Britain last year Canada supplied only £12,127. Canadian oats supplied only £1,172,000, or 12 per cent of the total.

On Lake Superior this force of the lake was most severely felt.

New York city's death rate is decreasing.

## For Welsh Pledge

A picnic will be held at the East End park at 2 o'clock on Wednesday afternoon under the auspices of the Welsh Ladies Aid society. All Welsh people are cordially invited.

## New World's Flying Record

Berlin, June 29.—Landman, an aviator, yesterday concluded a non-stop flight of 21 hours, 48 minutes. It is claimed that this flight constitutes a world's record.

PANAMA and the CANAL \$2 EDITION Expense Amount of 50c (Sent by Mail, Postage Paid, for 70 Cents and 6 Certificates)

## Discovered That Adam, Not Eve, Ate The Apple

Philadelphia, June 29.—Only last week Dr. Stephen Langdon, of Jesus College, Oxford, startled the world and upset the tradition that had existed for aeons of time by announcing that Adam, and not Eve, ate the forbidden apple. As his authority for this remarkable announcement, Dr. Langdon mentioned one of the clay tablets belonging to the Nippur collection of the university of Pennsylvania, which he succeeded in translating after years of effort.

Unfortunately, Dr. Langdon had only half of the clay tablet to work upon. Consequently his translation was incomplete.

Now comes an announcement from the University museum stating that the missing half of the clay tablet concerning the flood, the escape of Noah and the fall of man had been found among the many thousands of tablets in the Nippur collection. Scholars have examined it and say that it will cause another sensation and supply the information that will establish for all time the innocence of Eve and the guilt of Adam. A copy of the tablet will be sent at once to Dr. Langdon in England.

# HUDSON'S BAY NOW WATCHES ALBERTA OIL DEVELOPMENT

Company Owns 12,000 Acres  
within 12 Miles of Dingman  
—Reserves Right.

BUILDING PALATIAL  
STORES APPROVED

Good Harvest Saving Factor  
in Serious Situation—Ex-  
pect Another This Year.

London, June 29.—At the Hudson's Bay company meeting here today, Sir Thomas Skinner drew the attention of the shareholders to the accounts which were now presented in a simpler and more instructive form, showing separately the yield of stores and fur business. Commercial depression, he said, had prevailed throughout the world to a great extent and Canada had suffered to a great extent. All branches of the company's business had been affected. The combined profits reached £1,177,674; expenses left a balance, profit of £38,626 and with the amount brought forward there was a total of £192,009. The balance to the credit of the land account was £461,528. The quantity of fur received considerably exceeded the year previous and if the prices had been maintained the value would have been £495,000 instead of £436,808, which was actually realized.

The stores was not productive of good results, an excellent example being the saving factor in a very serious situation, said Sir Thomas, and under good harvest conditions the saving factor was not so great. Sales of farm land approximated an increase over the six years ago, but the price realized had increased 12 per cent. Last year's price of £4.36 being the highest attained by the company notwithstanding that the lands sold had been inferior.

The present stagnation in the demand for town lots was the natural result of over speculation. The company's properties were so well located, said Sir Thomas, that the inevitable demand for them must arise with the development of the cities concerned. Installments and interest were not being paid with the usual promptness.

The chairman also alluded to the heavier demands for municipal and other taxation. The pace, in regard to this, he said, had long been excessive. Some control was desirable and legislation for this purpose had been introduced by the governments of Saskatchewan and British Columbia. It was not anticipated that the increased taxation this year, will be all in proportion to the previous 12 months, several cities having practically adopted last year's assessments. The chairman also noted the continued railway activity.

Speaking of the oil prospects of Alberta, Sir Thomas Skinner said that the Hudson's Bay company owned 12,000 acres within a radius of 12 miles from the Dingman well and as they now reserved rights of all underground wealth within this area, they were carefully watching developments in this regard. The receipts for the first quarter of the present year were £31,559 against £14,457, for the same quarter last year. One shareholder expressed the opinion that the company were erecting palatial stores far ahead of requirements for many years. The chairman did not agree. Never in the history of Europe, said Sir Thomas, or America, had there been such an increase in population as in Canada recently, and the company had built for the future as well as for the present. Richard Burdette, a director, being invited by the shareholders to give some account of the sales-shop business, said he was most highly impressed with the enormous future for the company in this direction. He denied completely that there had been any extravagance. The shareholders must be patient, he said, and not expect big returns in the first few years.

## DISORDER BREAKS OUT AMONG THE STRIKERS AT PITTSBURGH PLANT

Pittsburgh, June 29.—Disorder broke out among the strikers at Westinghouse employees in East Pittsburgh today, pickets surrounding all entrances to the plant, and preventing persons from entering. Office men, foremen and even superintendents were not permitted to cross the bridge, and the presence of 20 armed guards from the plant had no effect on the excited crowd.

Deputy sheriffs failed to quiet the people and the police, reinforced by 20 special officers, hastily sworn in by Sheriff G. W. Richards arranged to call on the state for help and when a report spread that the Greenburg troop of the state constabulary was on its way to the town, the excitement increased.

## CITY COUNCIL SITTING TODAY COURT REVISION

Today the city council are sitting in the council chamber for a court of revision, hearing the complaints appealed to from the board of commissioners on the assessments made on Alberta avenue. There are being taken up first today. A number of other appeals from other property owners are also to be heard. It is possible that the sitting may extend over until tomorrow, owing to the number to be taken up. They must all, however, be disposed of before Tuesday night, as the city charter states that the final hearing by the council must be concluded by the end of June. Further right to appeal is then to be had through the supreme court.

## LICENSE BOARD RENEW RIGHTS OF TWO HOTELS

A meeting of the board of license commissioners for the province was held this morning, at which a number of matters were left over from the annual meetings were disposed of. The license of Powell and McNaughton, of Mountain View, was renewed for the license year 1914-15. The Lincoln hotel in Calgary was also renewed. The license of John George, of the Y. W. was not recommended, the past conduct of the house not being considered satisfactory.

## RAIN JUST IN TIME FOR SOUTH COUNTRY; IS GOOD AND HEAVY

A. D. Campbell, of Calgary, formerly connected with the Dominion department of agriculture, said at the George hotel today that the rain which came at the latter end of last week was just in time. It came good and heavy, was well spread over the southern portions of the province and seemed to be heaviest in the north where it was most badly needed. Mr. Campbell was connected with the Ontario department of agriculture before coming west, and is now in private business.

## CARMEN DAILY IS CALLED TO STAND AT POLICE PROBE

(Continued.)

ing, he said it was too bad that they would not let us girls alone. Mr. Higgs said that Miss Daily had made an affidavit in Saskatchewan that Mr. Mohr did not ask her for protection, but now she explained that it was the other way around.

Witness stated that Miss Smith, her partner, had told her that the man at the Namoy Wine and Spirit company limited had told her that she could read the upstairs part of the premises for \$50. Miss Smith said she would not want to rent it as it was always getting "pinned." He replied that it was not the chief's fault; both went over the chief's head.

Witness said he was arrested at day after Wheeler's second visit

## OLD LAND MARK EFFACED IN LOS ANGELES

Last of Famous Little Nurseries Disappears Before March of Business.

Los Angeles, June 29.—The last of the little nurseries that once were numerous in what is now the business center of Los Angeles has disappeared. For ten years has a little nursery remained at 157 South Spring street. Sycophants sprang up around it. The tenement life of the business district passed before its doors. It furnished the one green spot amid the piles of concrete, steel and granite around it. But now it has offered the many others that have been crowded out by the expanding business district.

Bauer, who was proprietor of the place ever since has come to Southern California from Omaha, recently was notified by William May Garland, agent for the property, that he must give way to the growing city and the march of progress southward. Within a few months, it is reported, a modern building will stand upon the spot until recently covered with trees and plants. The spot which the nursery occupied had a frontage of 50 feet in Spring street and a depth of 124 feet. When its present owners bought the property about fifteen years ago they gave less than \$2,000. Today, according to Mr. Garland, it has far more than quadrupled in value.

## P. G. E. RAILWAY WILL MEAN MOST TO POINT OF START TO NORTH

"Prince George will forge ahead as soon as they begin to build the Pacific Great Eastern to the Peace River country this year," said Frank A. Ellis at the King Edward hotel yesterday. Mr. Ellis was the auctioneer at the sale of both the government and Grand Trunk Pacific lot sales at Prince George. The route for the P.G.E. line north has not yet been announced, he says, but it will mean a great deal of whatever point it starts from, as the route of a great railway through the country will find its way through that point to Prince Rupert or Vancouver.

Work has already been begun on the P.G.E. (D.T.P.) south from Prince George to Vancouver, while at the Vancouver end trains are being operated. When the line is finished Edmonton will be furnished with an alternative route to Vancouver.

## POSED DETECTIVE, IS FINED \$50 AND COSTS FOR DECEIT

Frank Kelly, who represented himself to be a provincial detective in the employ of chief of detectives J. D. Nicholson, was this morning fined \$50 and costs or two months in jail. Kelly was found in a barn with a colored woman and led the detectives to believe he was in the government's employ, and in search of liquor, but further inquiries found him to be falsifying and he was arrested and convicted.

## NO WOMEN MASONS; SOLOMONS' PRECEDENT

Atlanta, June 29.—An interesting writer in the current issue of the Amity Messenger, the official organ of the Masons' Amity, undertakes to answer the question, revived again recently by some of the fair sex, "Why can't women join the Masons?" "Why can't women join the Masons?" "The essential reason, according to the writer, is precedent. "Solomon, Israel's great and wise king, organized the first Masonic lodge. He, too, knew it would never do to initiate one of his wives without taking in the whole lot, to say nothing of the fact that his wife's friends would have made a fuss."

"Most modern husbands can't control their wives as well as Solomon controlled his," the writer says. "Our women are so much smarter than men these days that if we once took them in the lodge they would soon be holding all the offices."

Brooklyn has begun construction of Flatbush subway.

Seattle is now operating a municipal street railway.

Milwaukee Y.M.C.A. bars confirmed bachelors from its members.

## CASES SENT TO SOUTH SIDE TO RELIEVE MASSIE

Owing to the over abundance of work thrown upon Magistrate Massie at the north side police court every morning, Chief Hill has arranged to have a number of cases, as he sees fit, sent over to the south side police court for trial before Magistrate Downes. Nine cases of vagrancy and drunkenness were so dealt with this morning, giving Magistrate Massie an opportunity of dealing with the large number of cases on hand since Saturday night's raid. The cells at the south side will also be used from time to time to relieve the congestion at the central station.

Chief Hill stated this morning that Inspector Brain of Winnipeg left for Edmonton and will arrive in the city tomorrow at 7:30 to take up his duties as deputy-chief here.

## UNIDENTIFIED DEAD BE BURIED ON HILL OVERLOOKING RIVER

Edmonton, June 29.—A plot of ground on the side of the little hill that overlooks the broad St. Lawrence is being purchased by the C.P.R. near this village. There all unidentified bodies will be recovered from the sunken Empress of Ireland will be interred. There will be many little stones, and above all, to be visible, it is understood, to all who voyage down the gulf, will be a monument to the dead. The first to be laid away in this spot, will be the remains of the woman which were brought to the surface yesterday by the divers. Careful examination has shown identification will be impossible. A careful description of the clothing, however, has been made and should the body be claimed it whereabouts will be known.

## P. G. E. RAILWAY WILL MEAN MOST TO POINT OF START TO NORTH

"Prince George will forge ahead as soon as they begin to build the Pacific Great Eastern to the Peace River country this year," said Frank A. Ellis at the King Edward hotel yesterday. ## ROBERT THE UNREADY.

\*After sleeping one night beside his knightly armor, in accordance with an ancient custom, Sir Robert Borden woke up in the morning and found himself in an embarrassing position. Sir Robert, in the absence upon his holidays of the minister whose duty it is to handle immigration matters, has undertaken that duty himself. Hence he is dealing with the Indian passengers immured on board the Komagata Maru. Or rather he would be dealing with them if he understood how to do it, which apparently he does not. "Sir Robert always is unready in a crisis," says the Victoria Times. Consequently it is not the first time he has been embarrassed. His whole career since becoming premier has been a series of embarrassments. Indeed he faced embarrassing situations before he became premier.

As leader of the opposition his followers more than once were inclined to depose him because of his lack of initiative and determination. The habit of disinclination to do things clings to him, we believe, despite the fact that he has acquired the honor of knighthood, an order which in days gone by was reserved exclusively for those who qualified for it by deeds of boldness and valor. But Sir Robert has not overcome his natural timidity of habit. He is letting the Hindu question drift. In the meantime there is one shipload in our waters demanding admittance to this land, which to the Asiatic eye appears to be "flowing with milk and honey."

Dispatches from India say another ship with an additional 400 is preparing to leave or is on its way, a fact which naturally will add to the embarrassment of Robert the Unready. Only a comparatively short time ago this gentleman gave the people of British Columbia assurance that he had in view a comprehensive measure that would dispose finally and effectively of the Asiatic question; but he has done nothing. The question still is simmering in his mind. Now that he is confronted with the consequences of his procrastination he is embarrassed. He has placed both himself and the Empire in a difficult position.

## LIBERAL COURSE ENDORSED.

A few years ago, Liberal incompetence and mal-administration in the handling of public contracts was a favorite theme with opponents of the Laurier cabinet. There were insinuations of rackets, graft and middlemen. There were assertions that contracts were given to favorites and that the interests of the country suffered in consequence. It was charged that men and firms were given contracts which they were not competent to handle. That was the Conservative story in the years preceding 1911.

There is another story now. It is told by no less an authority than a member of the Borden government.

"When we took office," declared Hon. Sam Hughes, in speaking of work under his department, as reported in the Unreviewed Hansard for June 6th last, "we became virtuous and tried to change the contractors, but we met with loss and delay and all sorts of trouble on the part of contractors and failure on the part of men who in the course of years, would probably have become as expert as the employees of the old contractors. The old men have been doing this kind of work for years and can do it much more satisfactorily and, therefore, we are still giving them the contracts."

The government has found that the best work was done by the contractors who were employed by the former administration. It cannot have found that there were improper acts on the part of these contractors in other years unless it is to be assumed that Premier Borden and his colleagues are prepared to trust the business of the country in the hands of men whom they know to have been guilty of wrongdoing. The fact is plain—and it is emphasized by the admission of Colonel Hughes—that under Liberal rule contracts for public business were awarded only to competent men or firms and that the country received a dollar's worth of value for every dollar paid. Slander cries were used by Mr. Borden and his allies in gaining power. The Government's acts expose the slander now.

## THE DEMAND FOR ROADS AND BRIDGES.

The rapid settlement of Alberta lands is reflected in the demands made upon the government of the province for roads and bridges. As fast as possible the government is extending facilities to new settlers, but settlement goes on at such a pace that to meet all the demands is impossible. The report of the Department of Public Works for the province states that over three hundred new wooden bridges were constructed in various parts of the province last year and still "the department cannot keep pace with the demands of the country in the construction of small bridges." The report suggests that eventually the maintenance and reconstruction of the smaller bridges will have to be undertaken by the local authorities, as is done in eastern provinces.

The growth of well settled districts and the development of main roads with a large amount of traffic upon them has to be met by the construction of trunk roads and steel bridges over rivers and streams. The report states that a large amount of trunk road construction was done during 1913 in accordance with the policy, adopted some time ago, by which special attention is being paid to the development of a system of trunk roads between the larger centres. Twenty-six new steel bridges were also erected.

Mention is made of a lack of co-operation on the part of some municipal organizations in regard to the roads, in consequence of which the government's policy of constructing roads to be afterwards maintained and improved by the settlers has not worked out as satisfactorily as is desired. It is expected that this lack of co-operation will disappear with the growth of the policy of self government which is being fostered in local municipal areas.

## The Adventures of Kathlyn

By Harold MacGrath.

(Copyright, 1914, By Harold MacGrath.)  
CHAPTER XV.—Continued.

Ahmed, his mind busy with a thousand things, forgot the thousand and first, at that stage most important of all; and this was the short cut, a mere pathway through the jungle but which lessened the journey by some thirty miles. And this pathway Umhalla chose. The three hours' headway was thus pared down to minutes, and at the proper time Umhalla would appear, not behind the pursued but in the road in front of them.

There was, to be sure, a bare possibility of the colonel and his party getting beyond the meeting of the path and the road—that is, if he kept going forward all through the night, which, by the way, was exactly what the astute Ahmed did. But Kathlyn's curiosity the next morning neutralized the advantage gained.

A group of masked dancers, peripatetic, was the cause. Confident that they had outstripped pursuit, she saw no reason why she should not witness the dancing.

How Umhalla came upon them suddenly, like a thunderbolt, confounding the elephants, how they fled to a nearby temple, bribed the dancers for masks and garments, fled still farther into the wooded hills, and hid there with small arms ready, needs but little telling. Umhalla returned to the city satisfied. He had, at least, checked them of their means of travel. Sooner or later they would founder in the jungle, lost, and he would be the younger daughter, and return.

Ahmed was grave. Lal Singh had gone. Now that the expedition had practically failed, his place was back in the shoe shop in the bazaar. Yes, Ahmed was grave. He was also a trifle disheartened. The belief he held that there would be many disappointments, but that in the end . . . He might be a liar like all the other Hindus. Yet surely one part of his foretelling was correct; many disappointments.

"Kathlyn," said her father, "Ahmed warned you not to stop."

"I am sorry."

It was on the tip of her tongue to retort that his own carelessness was the basic cause of the pursuit; but she remembered in time what her father had been through.

"There is a village not far," reminded Ahmed. "They are a friendly people. It is quite possible, that the money we have, to buy some horses, small but sturdy. But there is one thing I do not understand, Sahib."

"And what is that?" asked the colonel.

"The readiness with which Umhalla gave up the pursuit. It's a long walk; let us be getting forward."

Late that afternoon they were all mounted once more on strong, tractable ponies, with water and provisions. And the spirits of all rose accordingly. Even Ahmed became cheerful.

"We'll make it, please God," said the colonel, "give us a telegraph office. That's all I need just now."

"Two days, Sahib," said Ahmed; "we will reach the sea."

They rode all through the night, stopping at dawn for breakfast and a cat nap after. Then forward again until they came upon a hunter's rest house, deserted. Here they agreed to spend the night. Beyond the rest house were half a dozen scattered mud houses, occupied by natives who pretended friendliness, huffing even the keen Ahmed into a sense of security. But at dawn, when they awoke cheerfully to pick up the trail, they found their horses and provisions gone.

The colonel, Bruce, and Ahmed, still armed, never having permitted the natives out of their keeping, set out grimly in pursuit of the thieves, while Kathlyn proceeded to forage on her own initiative.

She came presently upon a magnificent ravine, half a mile in width. There was a broad ledge some 15 feet below. It was exactly what she needed, for near at hand stood a shepherd's hut. Stirred by the spirit of investigation, she made preparations for descent by attaching the rope she had brought along to a stout boulder.

Panthers!

They were coming up the pathway behind her. It would be simple enough to descend; but how to get back to the rest house? There was no time to plan; she must act at once. She must drop down to the ledge and trust to her sin.

She called out loudly as she swung downward. The shepherd came running out of his hut dumfounded at what he saw.

(To be continued next Saturday)

(To be continued tomorrow.)

There are 17,000 agricultural bands in Russia.

## TRAFFIC ON WELLAND CANAL HELD UP BY UNUSUAL ACCIDENT

St. Catharines, Ont., June 29.—From 7 o'clock Saturday night till Sunday afternoon traffic on the Welland canal was again interrupted by an unusual accident, although the damage will not be heavy. The steamer Jamaica, bound up, had entered lock No. 2 and the hush from her moving propeller unshipped the lower portion of the two head-gates, although she did not strike them. The foot-gates were closed and no flood took place, but it proved a tedious undertaking to again set and fasten them. It is believed that the accident was caused by the gates not being properly locked.

## ALLEGED MURDERER LIVES FIVE MONTHS IN HOLLOWED TREE

Vancouver, June 29.—Nickans Astoria, who for four months has been a fugitive from justice, was arrested last night on charge of attempted murder of Dominic Caputo, whom it is alleged he stabbed last February. For four months Astoria has been living in a hovel he dug in a huge tree stump in Point Grey. The secret was unconsciously betrayed by the man's wife when she was carrying provisions to his hiding place. The officers followed and arrested Astoria just as he was in the act of receiving the food from her. He made no resistance.

Michigan Steamer Burns

Detroit, June 29.—A St. Marysburg on Lake Michigan, the large passenger steamer Manistee was burned, causing a loss of over \$60,000. The boat was close to shore at the time, but so quickly did the flames travel that many of those on board were forced to jump into the water to save themselves. All were picked up almost at once by small boats.

More for Shackleton

London, June 29.—Sir James Key Reid, the Dundee millionaire, has given £24,000 to Shackleton's Antarctic expedition. Shackleton said yesterday that his contribution places the undertaking on a sound financial basis. He had no fear now that it would not be well equipped throughout.

Chile sold \$20,718,568 worth of nitrate of soda to the United States in 1913.

# The Prophecies of the Last Four Years Advanced by the Fort McKay Oil & Asphalt Company, Limited Are Being Fulfilled Today

THE Directors of the Company, all well known business men of Edmonton, staked their faith and dollars in the Northern Oil and Asphalt Fields. They are followed today by the world's greatest geologists and the big men who produce the oil. Our driller and his crew left for Fort McKay today, where our well which is down now to the depth of 1058 feet will be developed to a greater depth.

## OIL HAS ALREADY BEEN PROVEN

Telephone 4104

## MR. BIRRELL SAYS IRISH HOME RULE IS INEVITABLE

London, June 29.—Home rule was inevitable, declared Irish Secretary Birrell, speaking in Yorkshire Saturday. If the present government disappeared tomorrow the first thing the Unionist government would have to do would be to enact a home rule bill, whatever they might be led to call it, or whatever it might be called. Birrell knew the present bill was secure.

Mr. Birrell deeply deplored that any section of Ireland should be separated from another for six years, and did not believe any party in Ireland wanted it. Any other proposals would be carefully considered by the present government.

India last year imported \$2,745,000 worth of matches.

## BURDOCK

BLOOD BITTERS

CURED A BAD ATTACK OF

ECZEMA.

All skin diseases such as Eczema, Salt Rheum, Tetter, Rash, Boils, Pimples, and Itching Skin Eruptions, are always caused from the blood being in a bad condition, and it is impossible to eradicate them from the system unless you put your blood into good shape. This you can very easily do without the slightest trouble by using Burdock Blood Bitters.

It drives out all the humor from the blood, and makes it pure and rich, and not only are the unsightly diseases removed, and a bright clean complexion produced, but the entire system is renovated and invigorated at the same time.

Mrs. G. A. Day, Somerville, N.B., writes:—"Last spring I had a bad attack of Eczema. I tried several patent medicines as well as the medicine of a physician, but they seemed to make the disease worse. I was advised to try Burdock Blood Bitters, and I did so with the result that in two weeks time the sores began to disappear. I continued to take it until I had taken three bottles and they worked a complete cure."

## "NO INSTRUCTION IN RELIGION FOR PUBLIC SCHOOLS"

Professor Alexander of University Makes Address to Audience at People's Forum.

## "WOULD BE DANGEROUS TO PRESENT LIBERTY"

Resolution Passed by Ministers on Subject is Particularly Dealt With.

"While not opposed to a systematic course in morals as a part of school instruction, we view with disapproval any attempt to introduce religious teaching into the public schools of Edmonton, more particularly such matters and material of religious instruction as prepared in a resolution of the Edmonton Ministerial association, under date of April 13, 1914, believing any such course to be fraught with grave danger to our present civil and religious liberties and those of our children."

The foregoing resolution, coupled with a recommendation of report to the city school board and the provincial minister of education, was adopted last night by a large majority after defeating attempted amendments, by the audience at the People's Forum, at the conclusion of an address by Prof. W. H. Alexander of the University of Alberta, on "Religious Instruction in the Public Schools."

At the outset of his address the speaker laid down two propositions which he regarded as fundamental: "No ecclesiasticalism has ever been favorable to liberty, where liberty has crossed its path," and "eternal vigilance is the price of liberty."

Prof. Alexander continued, item by item, the report of the ministerial association recommending that one half hour per week be allowed in the public schools for formal religious instruction to persons outside of the teaching force.

He considered that the best moral instruction was indirect and emanated from the personality of a fine teacher, that Bible knowledge and morals were interchangeable, and that the ideal of 2,000 years ago was adapted to a modern race of today.

In his lecture that followed Prof. Alexander's address was attacked by Messrs. Jones and S. Graham, criticized last severely by Messrs. Stevens and E. Smith, and defended by Miss Olivia Smith and Messrs. E. Poole, J. T. Hall, G. W. Richester, J. T. Turnbull and A. C. Johnson.

This was the last of the present series of Forum addresses, the society taking a vacation for July and August.

## Troubled With Weak Back and Kidneys For 10 Years.

Many people fail to understand the significance of a lame, weak, or aching back.

When the back aches or becomes weak it is a warning that the kidneys are affected in some way.

Take notice to the warning and cure the backache on the first sign, for if you don't, this serious complication is sure to arise and perhaps develop into Dropsy, Diabetes or Bright's Disease, the three most deadly forms of kidney trouble.

Don's Kidney Pills will strengthen the weak back, and prevent any form of kidney trouble entering the system.

Mrs. Ed. Boyer, Nokomis, Sask., writes: "I have been troubled with weak back and kidneys. I had terrible dizzy headaches, and could not sleep at night. In this way I suffered for ten years, until I read about Don's Kidney Pills. I purchased two boxes, and at his help me, I sent to two more; they put me on my feet, and I have been able to work ever since."

Don's Kidney Pills are 50 cents a box, or 3 boxes for \$1.25, at all dealers, or by direct receipt of price from The T. Millburn Co., Limited, Toronto Ont.

If medicine doesn't remedy "Don's"

## WEARY TIREDNESS CHANGED TO VIGOR

That Played-Out Feeling Was Quickly Remedied and Health Restored.

Story of a Merchant Who Almost Lost His Business and His Health Through Neglecting Early Symptoms of Disease.

"My life years have been of sedentary character," writes T. J. Tindley, head of a well known firm in Hutchinson. "Nine hours every day I spent at office work and took exercise only on Sunday. I disregarded the symptoms of ill-health, which were all too apparent to my family. I grew thin, then pale, and before long I was jaundiced—eyes and skin were yellow, my strength and nerve energy were lowered and I was quite unfit for business. In the morning, a lightness in the head, particularly when I bent over, made me very worried about my health. Most of my business transactions I found to be at business every day. I neglected my health and my family's welfare. Of course, I grew worse, but by a happy chance I began to use Dr. Hamilton's Pills. I was forcibly struck by the fact that they were causing erasing my name, and it seemed incredible that pills could so quickly cleanse and regulate the system without causing any unpleasant after effects. Dr. Hamilton's Pills gave me a new life to my health, strengthened my stomach, and brought back to me perfect good health. My skin is clear, dizziness has disappeared and my appetite, strength, spirits are perfect."

Before anything offered you instead of Dr. Hamilton's Pills, which are sure to cure you in ten days, five for \$1.00 at all druggists and storekeepers, or postpaid from the Cassiniana Co., Buffalo, N. Y., and Kingston, Canada.

Alongside of the ethics of Aristotle and Plato, the ancients regarded man as pure as the stars of the churches. If the protestants of eastern Canada had not been unwisely insistent on religious instruction in the public schools we would not have had forced upon the separate school system of the Roman Catholics, which is an anomaly and reproach to our western civilization, but a condition that the Catholics had the right to insist upon under the circumstances," said the speaker.

At the conclusion of the lecture of Prof. Alexander's address was the following: "Is it reasonable that we should have a religious instruction in the public schools of 2,000 years ago adapted to a modern race of today?"

In his lecture that followed Prof. Alexander's address was attacked by Messrs. Jones and S. Graham, criticized last severely by Messrs. Stevens and E. Smith, and defended by Miss Olivia Smith and Messrs. E. Poole, J. T. Hall, G. W. Richester, J. T. Turnbull and A. C. Johnson.

This was the last of the present series of Forum addresses, the society taking a vacation for July and August.

## CARRANZA ASKS MEDIATORS TIME TO SEE CHIEFS

Constitutionalist General Replie invitation Informal Conference.

PROMISES TO DO ALL TO HASTEN CONSULTATION

Agues Calientes Evacuated by Federals—Villa Changes His Plans.

Washington, June 29.—General Carranza, first chief of the Mexican constitutionalists, has replied to the invitation extended to him by his associates in an informal conference with representatives of General Huerta and the United States government in Mexico, asking that he be given time to consult with his generals.

General Carranza, it was learned here yesterday, informed the mediators in his latest communication that because of the plain of Guadalupe, under which he was chosen first of the constitutionalists, it would be necessary for him to confer with his associates in the movement before entering upon such important negotiations.

Assurances are said to have been given the mediators by General Carranza that he would hasten the proposed consultation with the troops of the United States, and that some definite understanding could be reached quickly as to the position to be taken by Carranza in the formal diplomatic conference.

Zacatecas, June 29.—Agua Calientes, capital of the state of the same name, has been evacuated by the Federals, according to information reaching General Villa's headquarters yesterday. Owing to this, his plan of campaign has been changed and the troops of the division are returning to Torreon.

Part of the division left Saturday night. The remainder left for the north Sunday. General Villa will follow his troops during the day. Last Wednesday it was announced that Villa's troops would be taken toward Agua Calientes overland.

FISCAL AGENTS FOR EDMONTON

THIS is the most conservatively organized Company yet placed on the market.

THE Capitalization is \$750,000, \$600,000 of which is Treasury Stock and the entire proceeds of the sale of this Stock will be used for development purposes.

EVERY share of the first issue of 50,000 shares carries with it the option to purchase an additional share at par value of One Dollar of the second issue of the said Pyramid Oils, Ltd. Treasury Stock.

THE Company has holdings adjoining all the wells now drilling from the United Oils to the Monarch, thus insuring a rapid rise in value when the next well comes in.

THE Directors are now carefully examining each holding to choose the best location for drilling.

REMEMBER this issue of 50,000 shares will be the only one at the price of One Dollar.

### CHINATOWN RAID SATURDAY NIGHT

Twenty-six Inmates Arrested  
and Much Whiskey  
Seized.  
GAMBLING IS WIDE OPEN  
Three Alleged Keepers Taken  
Have Plenty Money on  
Person.

Edmonton's Chinatown was raided shortly after 8 o'clock Saturday evening and 26 Chinamen arrested, three of them, Chow June, Mah Bow and Mah Kung Tong, are the alleged keepers, the rest being frequenters.

The scene of the raid was at the corner of Rice and Namoy and taking place as it did, during the busy part of the evening, the raid was witnessed by several hundred people. The raid was pulled off without a hitch, and not a man escaped. Eight plain clothes men and as many policemen made their way to the joint and entered. Everything was in full swing, and has been for the last six months. Pan, tan, chue-lack, and other Chinese gambling games were in full swing, for it was Saturday night and the off night for many Chinese.

Every man of them was arrested and the patrol made several trips to the station. The place was searched and all gambling paraphernalia seized. This was a large quantity of Chinese whiskey, so much in fact, that there is a huge stock of it very rare in basement at police headquarters. The books of the joint were also taken, and Chief Hill believes that in these may be revealed some important information as to the running of the place, etc.

One of the keepers arrested had a large sum of money on his person, and it is believed that through the methods of gambling used at the joint, the poorer class of Chinamen, such as laundrymen are the sufferers. At the police station, the men were placed four in a cell, and a large staff was kept busy into the late hours Saturday night and into Sunday, making a list of all articles found on the Chinamen. The corner at which this raid took place is noted for the number of Chinamen that are continually loitering about there.

The arrest was effected yesterday of Pan Yuen, a wealthy Chinaman who owns property in Edmonton and Calgary and Vancouver, and will be charged with aiding and abetting in the carrying on of a gambling house.

All the Chinamen appeared in police court this morning, before Magistrate Steele. Pan Yuen, the wealthy one of the lot, charged with aiding gambling

### OUTINGS ARE BETTER THAN DRINKS, THINKS GERMAN COMMANDER

Berlin, June 29.—General Von Dienting, commander of the 15th army corps, who recently ordered that non-alcoholic drinks be sold at the canteens for the same or lower prices than alcoholic drinks, has issued a new temperance order.

He refers to the habit of holding "beer evenings," following certain corps events, the cost of which is paid from the canteen surplus, and says: "I am of the opinion that the soldiers would enjoy it more if the funds were used for an excursion, for instance, to the battlefield of World."

"The officers could give commonly understandable speeches and milk coffee, or other non-alcoholic drinks could be served. Whoever feels that he could not exist without alcohol could pay for it out of his own pocket."

"The soldiers would be more grateful to their superior officers for such excursions than for beer evenings. The recollection of those who would persist pleasantly, whereas the recollections of beer evenings end with the passing of the Kattenhammer due to them."

General Von Dienting says he believes that his order will serve to banish the evil practice, rooted in the antiquated and false belief that one can only be happy when he has wine or beer to drink.

### LARGE AREAS LEASED NEAR SWIFT CURRENT TO GIVE REGINA GAS

Regina, June 29.—Coste and McAuley, who recently closed a contract to supply Regina with natural gas, journeyed to Maple Creek on Friday night, in company with a party of 20 Regina people, to file on gas and oil leases.

They were met at Maple Creek by a number of Calgary citizens who joined the party to assist in obtaining the necessary leases. The party entered the International tract in the Swift Current district, the exact location being 25 miles north and 25 miles west of Swift Current. Three drilling outfits were also present. The drilling outfit will be at work within a week, commencing operations as to the International tract company, of Calgary.

house and also extortion, was remanded till Friday on \$500 cash bail and two bonds of \$500 each. Chow Mah Bow and Mah Kung Tong, the alleged keepers, were also remanded and allowed on bail of \$200 each. The other 29 or more who were arrested Saturday also appeared and pleaded not guilty. Their cases will be heard with the rest on Friday. Mr. Chow June will be charged with having the liquor for sale. Pan Yuen, being the most wealthy of the Chinamen, is charged with furnishing the bail in nearly all the cases, and he flashed large rolls of bills of \$100 and \$500 before the court, and seemed to take pleasure in supplying the necessary funds that his fellow countrymen might have their freedom while awaiting trial.

### IN THE PARLOR CAR

Railway and Shipping News

In consequence of increased mileage having come under the supervision of the operating department of the Canadian Northern railway, a new district superintendency has been created. Its headquarters are at Calgary and J. L. Boomer, heretofore superintendent at Edmonton, will have charge. The district will include the Calgary-Bathurst (Goose Lake) branch, the Munson-Vergville branch, the line from Warden west to Brazeau, and the new Edmonton-Camrose short line.

J. C. O'Donnell comes here from Bathurst, Ont., to take Mr. Boomer's place. The Edmonton subdivision comprises the main line west of North Battleford and the Athabasca branch. Both these subdivisions, also those with headquarters at Dauphin and Saskatoon, come under the supervision of W. A. Brown, general superintendent of the road, whose offices are in Edmonton.

As stated in the Capital last week, the new Camrose line is almost ready for regular traffic and it is expected that within a month the Canadian Northern will be running daily through trains between Edmonton and Calgary, over the high level bridge, the C. P. R. running its Winnipeg-Edmonton trains over the Camrose-Strathcona cut-off in return. It is also rumored that the arrangements being made between the two roads involve the use of part of the new Brazeau line of the C. N. R. by the Canadian Pacific, including the bridge over the Saskatchewan at Rocky Mountain House.

Although the C. N. R. will put on through trains between here and Calgary via Camrose, that line is not intended by the company as its final car in Edmonton-Calgary traffic. Another line is started, running almost as straight line between the two cities, grading has been done at both ends of the continent and step out at the present C. P. R. line.

According to an official announcement made at Vancouver the Canadian Northern has completed the arrangements for the railway company's full ferry service, whereby passengers can board sleepers at one end of the continent and step out at the other. Part of these arrangements have to do with operating a ferry service from the British Columbia mainland to Vancouver Island.

When the Canadian Northern transcontinental line is completed, some time this year, the "Capital City Express" train which now runs from the capital of Manitoba, Winnipeg, to the capital of Saskatchewan, Regina, connecting with a train for the capital of Alberta, Edmonton; will mean some of the company intends to run trains from Quebec, the capital of the province of that name and ancient capital of Canada; through Montreal, also an old capital, Ottawa, the present capital of the Dominion; Toronto, capital of Ontario and where the fiscal offices of the C. N. R. are located; Winnipeg, Regina and Edmonton, the

### PYRAMID OILS STOCK IN PUT ON EDMONTON MARKET THIS MORNING

The stock of an oil company new to Edmonton, but very favorably received in Calgary, went on the market this morning and indications are that the Edmonton issue will be taken up liberally by the investing public. This is the Pyramid Oils, Limited, the local agents being the Ely Realty company, 654 First street. The head office is in Calgary.

The Pyramid Oils, Limited, owns 1,000 acres of leases, well distributed over the various southern oil fields. C. A. Cassidy, a prominent oil broker of Calgary, was in the city yesterday, and stated that the directors of the company had deemed it advisable to have holdings over as large areas as geologists' reports would indicate there were good prospects for oil being found.

Several leases have been fortunately secured in the vicinity of the Monarch well and a geologist has been engaged to specifically examine these and report as to the best site for the best drill to be put down.

In addition to several holdings in the Okotoks field, which are also being reported on by geologists, the company also has obtained three leases in the Sturgeon-Brook district, one being close to the location selected by Dr. F. E. Elliott as the drilling site for the Phillips-Elliott concern.

A noteworthy feature of this flotation is the fact that only 150,000 shares have been given for lease, out of a total capitalization of \$750,000 or 750,000 shares at the par value of \$1 each. These 150,000 shares are, moreover, being held in escrow by the company.

Every share of the first issue of 50,000 shares carries with it the privilege of purchasing an additional share at the same rate at which the first issue is being sold; namely, \$1 par. Mr. Cassidy, who is one of the company's fiscal agents, says that the company has been organized by conservative men who are after oil and not out to merely sell stock and that large sales of 50,000 shares have been made for the purchase of additional natural gas and oil leases, showing another "wild field" prospect, 100,000 shares having been set aside for this purpose. These shares cannot, however, be sold for less than \$1 each cash, and the money received must all be used in the purchase of additional leases for the company.

St. Louis will not permit park refreshment stands to open Sundays.

Haverhead, N.Y., will this summer establish a municipal water plant.

### EDMONTON TENNIS CLUB WINS DYDE CUP FROM "SCONA

Some of the finest tennis matches ever seen in Edmonton were played at the Strathcona Tennis club when the Edmonton Tennis club won the Dyde cup by 6 events to 4.

One of the most exciting matches of the afternoon was between Gilliam and Hay. Gilliam won by 6-0, 4-0, 5-1.

Miss V. Davies, Edmonton, won from Miss H. Martin by 6-3, 6-2. This match was the most disputed of the ladies' singles. Miss Davies played a very accurate game and used her head all the time. Miss Martin is quite a young player and showed considerable improvement since last year.

Gibbs and Taylor had a very disputed match against Yule and McKnight. After losing the first set 6-4 they won the next two 6-2, 7-5.

The Misses Wilson played against Miss M. Morris and Miss M. Wilson. Both teams played a careful game and three sets had to be played before the Strathcona ladies defeated their opponents. Score 6-0, 4-0, 6-1.

Dyde against Kinneard. Dyde was not playing up to his usual form. He won the first set 6-4 and the second 11-11. Kinneard tried hard, but was unable to meet the situation.

Morrison and Miss McLean, Strathcona, defeated Cole and Mrs. T. Davies, Edmonton, 2-4, 6-4, 12-10. The score shows that this match was close and contested and three sets were needed to decide the issue.

Johnson and Seymour lost against Casselman and Dyde. The Edmonton players were clearly off their game, but Casselman and Dyde were playing in excellent form and easily captured the match in two straight sets by 6-4, 6-2.

Dr. Mills and Mrs. H. B. Wilson played a splendid combination game, each other and easily defeated Steer and Miss P. Martin 6-1, 6-2.

In the ladies' doubles Mrs. Hay and Miss Martin, Strathcona, beat the Edmonton ladies, Miss Kelly and Miss Mercer, 10-8, 6-4, after a very close fight, the Edmonton pair appearing to lose the game through lack of combination.

The ladies' singles proved a comparatively easy win for Mrs. Tallour was shown by both players, but Mrs. Tallour was more than a match for her opponent.

Steamer Not in Danger  
London, June 29.—The latest news received here regarding the steamer California, which went ashore Saturday night on the rocks off Tory Island, is that she is in no immediate danger. Another liner and gunboats are standing by and others will arrive at the scene during the day.

### INFILUX TO NORTH NOT SLACKENING

Although Immigration to Canada Decreases, Peace River is Different.

CROPS IN GOOD CONDITION  
Traffic on Lake Extensive  
Boats Next Year for  
Dunvegan.

"The tide of immigration to Canada has undoubtedly slackened as a whole," stated J. C. Lay, general manager of the Air Line Transportation company, this morning, after returning from a trip north as far as Grouard. "But you would never notice it so far as the Peace River country is concerned, because there are more going there than ever before, and a better class than goes into most districts, at that."

Mr. Lay states that there is no truth in the rumor that the bridge of the Edmonton, Dunvegan and H. C. railway over the Athabasca at Smith was washed away or in any way permanently damaged by the recent floods. Some little damage of a temporary nature did take place, however, but beyond a little extra work and cost, it will not affect the bridge or the railway.

The floods were the most excessive for years, if not the greatest that have ever occurred, says Mr. Lay. Small bridges were carried away in many instances, but the crops were not injured in the least; in fact, they were benefited, and they are now in as good a condition as at this time of the year in any previous summer.

The Air Line Transportation company, whose local offices are at 634 First street, is running boats from Savard to Grouard on Lesser Slave lake, and although the roads beyond Grouard are very bad, thus keeping many out of the north who otherwise would have gone in, the traffic is so great that next year it is intended to put boats on the Peace river, running east and west from Dunvegan.

Child Killed by Auto  
Calgary, June 28.—Mary McCullough, aged 8, daughter of T. McCullough, 119 Twelfth avenue east, was fatally injured Sunday afternoon when she was run down by an automobile driven by Frank E. Page, manager of the city hall. She was taken to the hospital, where she died after a struggle here. She died at the General hospital 15 minutes after the accident. Page was arrested on the charge of manslaughter and released on \$5,000 bail. An inquest will be held tonight.

Chicago will soon be surrounded by a concrete road system.

Albany, N.Y., has power to order abandonment of noisy motorcycles.

# A TRIP TO PANAMA

THE CAPITAL wants every one of its readers to take a trip to the GREAT PANAMA CANAL and see the wonders of this mighty achievement. You say you can't spare the time. All right, then we'll bring the Canal TO YOU—all in one BIG volume, filled with PICTURES of ACTUAL SCENES never before published, described in words that hold you spellbound. Read on, and learn how you may get this magnificent book—this complete story of Panama in picture and prose—

Not merely a picture book, but an educational work of rare interest to every member of the home.

## FOR \$1.20 ONLY

Art plates reproduced from water-color studies abound throughout the entire magnificent volume.

Every progressive man, woman and child is eager to know all about the Panama Canal and the remarkable country through which it passes. Realizing this fact several hundred newspapers have arranged to take an enormous advance edition of the most elaborate and complete illustrated history of PANAMA AND THE CANAL, published by the Syndicate Publishing Co., of New York City.

This company is eminently fitted to issue such a work at a minimum cost. It has heretofore supplied through daily newspapers millions of high-class dictionaries and other books.

THE CAPITAL is the one paper in this section through which PANAMA AND THE CANAL IN PICTURE AND PROSE can be had. The plan outlined below tells you how to get this only complete Panama Book ALMOST FREE.

The large volume is twice the size of an ordinary novel; it is a most handsome book, stamped in gold, with beautiful color panel on front cover, showing the famous Culebra Cut; it contains 450 large pages filled with interesting information of rare educational value to every reader. The illustrations are modern works of art, covering every important scene in the Canal Zone; they include 16 water-color plates with more than 600 photographic studies.

## Presentation By The EDMONTON CAPITAL

Willis J. Abbot, the versatile writer on International subjects and author of many books of history and travel, spent months in Panama and the Canal Zone in the preparation of this volume. He collected at first hands the complete history of the great Canal, with a wealth of historical data concerning Panama which has never before been written. The result is a human interest story of this beautiful land and its people from the early days when Columbus tried to find a natural waterway from the Atlantic to the Pacific, down to the present time.

Special staff photographers made the hundreds of beautiful views which illustrate practically every page of this exhaustive book.

The well-known artist, E. J. Read, made the sixteen sumptuous water-color studies which are reproduced by the latest color processes on specially made paper.

The Panama Canal, the greatest engineering achievement of the world's history, cost more than

**\$400,000,000**

It links the two greatest oceans, and becomes the most important factor in peace and war. So where is the red-blooded inhabitant of this globe that does not feel vitally interested in it? Truly it is the wonder of this progressive age!

## PANAMA and the CANAL in PICTURE and PROSE

The Most Unusual Canal Scenes Described in Word Pictures That Fill You with Astonishment at the Wonders of this Great Undertaking

The greatly reduced illustration printed below shows less than half the size of the large illustrated volume

Learn How You Can Get This Beautiful Volume Almost Free

Compared to other similar standard books it is

Fully Worth **\$4.00**

and will be sold at this price after the present edition has been distributed. This unheard-of value to our readers represents more than an 80 per cent. saving.

It tells you of the people of Panama and the Zone—their dress, their homes, their work and pastimes.

## HOW TO GET IT

In another column of this paper is printed daily a Panama Certificate. To get PANAMA and the Canal in Picture and Prose at less than the usual cost of printing and binding, clip and present

## NEW LEGISLATION AFFECTING SCHOOLS IS WORKING WELL

Numerous Changes in Statutes for Betterment of Public Instruction.

### COMPULSORY EDUCATION LAW IS STRENGTHENED

Good Deal of Interest Being Shown in Consolidated Schools Act.

D. S. Mackenzie, deputy minister of education, in the eighth annual report of the department of education for Alberta, states that during the year 1913 an unusual amount of new legislation was enacted or became operative which directly or indirectly affected the operation and administration of schools. Such measures as the new grant act and the amendment relating to school libraries, trunks, trunks and compulsory education all came into force, and while it was inevitable that some confusion should arise during the transition from the former to the present methods of procedure, particularly with regard to taxation, the smoothness with which various measures had worked out has been remarkable.

#### Consolidated Schools.

Many inquiries have been made from various districts with regard to the principle of consolidated schools, it being evident that much thoughtful consideration is being given to the subject by the officials of rural and village school districts.

"The machinery in this connection," says Mr. Mackenzie, "is remarkably simple. The board of any two or more contiguous districts may pass resolutions asking that the resident ratepayers of their respective districts be given the opportunity of voting on the question of a proposed consolidation. The department provides for the holding of such polls and can be satisfied that the majority of the resident ratepayers so voting are in favor of the proposed consolidation. The minister, by order, brings the consolidation into existence.

(a) Each of the school districts entering into the consolidation retains its identity as a school district.

(b) The board of the consolidated school district is composed of the chairmen of the boards of the school districts involved during the first year and subsequently of one representative elected by the resident ratepayers of each of the school districts.

(c) The revenue required for taxation in connection with the operation of a consolidated school is provided by an uniform assessment over the whole consolidated district.

(d) The revenue required to provide for the liabilities of the consolidated districts is provided for by a special levy on the assessed property of the respective districts.

(e) The government aid given to such a consolidation is the sum of the grants which would be earned by the consolidated districts if operated individually and under the most favorable conditions, together with a grant of eighty cents per day for each conveyance which is employed for the transportation of pupils.

Changes have been made with regard to the bonding of treasurers. Under the amendments recently passed the department places the treasurer of

all rural and village school districts under guarantee bonds and pays the premiums, deducting the amount of such premiums from the next government grant due the respective districts. Should the amount of money passing through the hands of a treasurer be greatly increased at any time, through the sale of debentures, the amount of bond is correspondingly increased until such time as normal conditions have been restored. The average cost of a school district in connection with a guarantee bond under this arrangement will be less than one-third as much as was usually paid for guarantee bonds under the former arrangement.

**Compulsory Education.**  
During the year several amendments were made in the trustee act and in the sections of the school ordinance, having regard to compulsory education. Hereafter, under the school ordinance a school board was not required to operate the school for more than one hundred and twenty days during the year unless there were at least two children between the ages of seven and fourteen, inclusive, resident within the district, nor was the board obliged to operate the school at all unless there were ten resident children of school age.

It is now provided that no board of trustees shall have authority to close their school for any cause not otherwise provided for without the approval of the minister and providing further that the department must be advised immediately of the closing of any rural or village school for any cause other than statutory holidays, and must also be advised within five days after the re-opening of the school after the beginning of a term or after it has been closed for any other cause.

**Trustee Act.**  
The trustee act has been very materially strengthened. The city school boards have without exception appointed energetic and conscientious trustees, and in almost every instance the board of the public school district and that of the separate school district have co-operated in this matter with good results to the efficiency and effectiveness of the services thus rendered.

The towns, too, have almost without exception appointed efficient trustees, and all these officials report monthly to the chief trustee officer, who has his office at the department of education. On a very few cases has the department found it necessary to appoint trustee officers in the rural and village districts as petty violations of the act in those districts are immediately reported to the department and to the school inspector of the district, who is in every case a provincial trustee officer. On a most gratifying improvement with respect to school attendance.

**School Debentures.**  
Good use has been made of the facilities provided by the department for the sale of school debentures. The great majority of men called upon to perform the first bond of a newly organized school district were without exception in school matters. The public business, while one of the first duties of school boards is called upon to perform in the issue and disposal of school debentures for the purpose of building and furnishing the school for their district. Their action in the past made them a comparatively rare agent for representatives of school boards in connection with the sale of school debentures which may represent themselves as debenture purchasers and so complicate the sale of school district debentures with the sale of school furnishings that not only have the school boards been induced to accept most unsatisfactory low quotations for their debentures, but they have also frequently found in their transactions with prospective purchasers of their debentures, the equipment of the school, and even in some cases, the construction of the school building, that they were absolutely at the mercy of more or less unscrupulous dealers.

The increase in the number of students directed for the teaching profession has been such that the large normal school building at Calgary has proved quite inadequate to meet the demands and for some time a second normal school has been constructed in temporary quarters supplied by the school board at Canmore. A magnificent building has been erected, large and fully modern normal school building is now in the course of construction.

**GREEK REPLIES IN FRIENDLY MANNER TO LAST TURKISH NOTE**

Constantinople, June 25.—The Greek reply to the last Turkish note, which has been received here, is couched in friendly spirit and accepts the proposals of Turkey regarding the exchange of Turkish and Greek property and the appointment of a Greek-Turkish commission to supervise the arrangements. Greece hopes that the incident which has disturbed the good relations between the two countries will not recur and declares that Mussulmans in Greek territory are treated on an equality with the other inhabitants.

**Building Permits.**  
The following building permits were taken out this morning at the building Inspector's office:  
T. C. Smith, 12th St., 2 dwell.  
P. D. Burton, 12th St., 1200.  
E. H. Hutton, 12th St., stable.  
M. H. Hutton, 12th St., dwelling.  
Paul Perot, Vernon St., dwelling.

### JACK JOHNSON RETAINS TITLE; BATTLE GOES FULL 20 ROUNDS

French Society and Royalty Were Present at Fistic Encounter Saturday in Paris—Black Champion Won on Points, and Had Best of Fight all the Way Through—Georges Carpentier Referee Fight, Says Will Not Meet Johnson.

Paris, June 29.—The members of the chamber of deputies, from Guadalupe, Martinique, French Guiana, and other French colonies, were present at the fistic encounter between Jack Johnson and Georges Carpentier, which took place at the Casino de la Wagram, Paris, Saturday night. The fight, which was a hard-fought battle, ended in a draw after twenty rounds. Johnson, the black champion, retained his title. The fight was refereed by Georges Carpentier, who said he would not meet Johnson again.

Johnson, who is a native of Hawaii, is a powerful fighter. He is 34 years old and stands 6 feet 7 inches tall. He has a record of 14 wins and 1 loss. Carpentier, who is a native of France, is a powerful fighter. He is 30 years old and stands 6 feet 4 inches tall. He has a record of 12 wins and 1 loss.

The fight was a hard-fought battle. Johnson and Carpentier fought for twenty rounds. Johnson won on points, but Carpentier had the best of the fight. The fight was refereed by Georges Carpentier, who said he would not meet Johnson again.

### WHAT MORAN SAYS.

Paris, June 29.—I figured I could whip Johnson in view of his age. I now believe him to be as strong as he ever was. I hope to secure a match with him. I want to meet the toughest man I can get. I believe I could have won from Johnson except for the foul blow on the nose. In the tenth round, which sent the blood down my throat and sickened me, the result of the fight has anything but discouraged me, and I shall go into training immediately.

Moran's second claimed foul. The blow cut Moran's nose and mouth. The referee warned Johnson while the crowd booed. Hard fighting was resumed. It looked as though Moran was weakening. This was all Johnson's work.

Round 11—Moran landed one on Johnson's head. The negro then rushed the Pittsburgher and received another warning for holding. Moran sent three blows to Johnson's head, but the latter evaded them.

Round 12—Johnson succeeded in landing several uppercuts to the jaw and straight left to the nose, and also over the eye. Moran was breathing hard and it did not seem that he could last much longer. He dodged a hard swing to the jaw.

Round 13—Moran led, but could do nothing, while Johnson sent one to Moran's jaw. Johnson landed hard on Moran's head, but the latter evaded it.

Round 14—Moran tried hard but unsuccessfully for the negro's jaw. One of Moran's blows brought smiles from his opponent. Moran ran into a punch on the nose and in making a futile attempt to get back, he ran into the ropes.

Round 15—Moran avoided the negro, who stood still, laughing. Moran landed hard to the negro's face while the latter rushed him to the ropes.

Round 16—Johnson forced the fight. Moran landed a hard right to the stomach. Johnson landed a hard left to the stomach. Moran was breathing hard and it did not seem that he could last much longer.

Round 17—Johnson sent a hard left to the jaw, while Moran made a wild swing. Moran then sent a left to the stomach, which seemed to make a deep impression on his opponent. Moran sent another left to Johnson's face, which brought a cheer.

Round 18—The negro sent one to the stomach, two to the face and then a hard left to the body.

Round 19—Moran went after Johnson, landing and hitting at the same time. He did no damage, however. His tactics caused adverse comment. Referee Carpentier frequently separated the men.

Round 20—The men shook hands. Johnson tried for a knockout. Johnson sent several hard rights to Moran's face. He then landed with his left. Moran, however, received the blows without any effect. Johnson landed frequently and at last Moran was breathing hard.

Round 21—Johnson gave Moran several terrific uppercuts to the jaw while Moran responded with several jolts to the negro's stomach. Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 22—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 23—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 24—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 25—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 26—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 27—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 28—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

### HATTERS WIN TWO FROM BRONKS AND BOTH BIG SCORES

Calgary Plays Terrible Ball and Remains in Cellar Position.

MEDICINE HAT June 29.—Medicine Hat took two ends of a double-header from Calgary Saturday. Both games were more or less of a burlesque and were won by the locals 10 to 5, and 15 to 2. The locals played good ball all the way but Devereux and the team playing behind mediocre pitching were inclined to burlesque and both games were won by the locals.

Round 11—Moran landed one on Johnson's head. The negro then rushed the Pittsburgher and received another warning for holding. Moran sent three blows to Johnson's head, but the latter evaded them.

Round 12—Johnson succeeded in landing several uppercuts to the jaw and straight left to the nose, and also over the eye. Moran was breathing hard and it did not seem that he could last much longer.

Round 13—Moran led, but could do nothing, while Johnson sent one to Moran's jaw. Johnson landed hard on Moran's head, but the latter evaded it.

Round 14—Moran tried hard but unsuccessfully for the negro's jaw. One of Moran's blows brought smiles from his opponent. Moran ran into a punch on the nose and in making a futile attempt to get back, he ran into the ropes.

Round 15—Moran avoided the negro, who stood still, laughing. Moran landed hard to the negro's face while the latter rushed him to the ropes.

Round 16—Johnson forced the fight. Moran landed a hard right to the stomach. Johnson landed a hard left to the stomach. Moran was breathing hard and it did not seem that he could last much longer.

Round 17—Johnson sent a hard left to the jaw, while Moran made a wild swing. Moran then sent a left to the stomach, which seemed to make a deep impression on his opponent. Moran sent another left to Johnson's face, which brought a cheer.

Round 18—The negro sent one to the stomach, two to the face and then a hard left to the body.

Round 19—Moran went after Johnson, landing and hitting at the same time. He did no damage, however. His tactics caused adverse comment. Referee Carpentier frequently separated the men.

Round 20—The men shook hands. Johnson tried for a knockout. Johnson sent several hard rights to Moran's face. He then landed with his left. Moran, however, received the blows without any effect. Johnson landed frequently and at last Moran was breathing hard.

Round 21—Johnson gave Moran several terrific uppercuts to the jaw while Moran responded with several jolts to the negro's stomach. Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 22—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 23—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 24—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 25—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 26—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 27—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

Round 28—Johnson landed a hard left to Moran's eye and followed with hard right to the stomach. Johnson landed a hard right to Moran's head. Moran was breathing hard and it did not seem that he could last much longer.

### PITCHER DAVE GREGG SHUT-OUT ROBIN HOODS 5 TO 0 FIRST GAME

Visitors Secured Three Scratch Hits and Were Under Gregg's Control at All Times—Both Games Played in First Time—Concannon Found for Nine Hits.

The Eskimos had their batting clothes on Saturday and took both ends of the double-header with Moose Jaw. This was a most unusual occurrence for the Eskimos, and needless to say, injected much enthusiasm into the fans. The home team were able to climb out of the cellar and are now resting peacefully in fifth place in the league, with a fair chance of moving upward during the next few days.

Two Fast Games. Both games were of the real class variety. Not only because the Eskimos were lucky to win them both, but the games were played in fast time. In the first game, there were lots of "pops" at all times. They were the style of games fans like to see. Plenty of action and small scores. Both games were played in fast time. In the first game, there were lots of "pops" at all times. They were the style of games fans like to see. Plenty of action and small scores.

The afternoon contest was a shut-out, 5 to 0, with the Eskimos at the right end of the score. The game was played under ideal weather conditions, although the diamond was slippery and soft from previous rains. The game went full nine innings, but no score was hit in either half when the rain poured down.

Three Scratch Hits. Pitcher Gregg, the lanky Eskimo, held the visitors to three hits. In fact, they weren't hits in the real sense of the word, for they were of the very scratch variety. Gregg was right on, and struck out seven men and walked two. His opponent, Concannon, who had been the terror of the league, pitched a fair game, but was inclined to be wild, walking five, and fanning but four. He also hit one batter with pitched ball.

The Robin Hood squad along for five innings without a semblance of a hit, and only got one to first base on a walk. In the sixth, the visitors, who were a new man in the league, drew a hit when he batted.

Concannon found for nine hits. The home team were able to climb out of the cellar and are now resting peacefully in fifth place in the league, with a fair chance of moving upward during the next few days.

Concannon found for nine hits. The home team were able to climb out of the cellar and are now resting peacefully in fifth place in the league, with a fair chance of moving upward during the next few days.

## P. A.

### makes men smoke hungry

Just you get a whiff of "the international joy smoke" and it's dollars to doughnuts you'll want it! Sell lots to the nearest store that sells tobacco—and stock up! The flavor and aroma of Prince Albert has got 'em all backed off the boards. It sure will hit the spot with you—it does with more millions of men who smoke it in a pipe or cigarette than any other pipe or cigarette tobacco. Get the drift of that?

## PRINCE ALBERT

the inter-national joy smoke

just does all that we say it will do. It can't bite your tongue and it can't parch your throat. All this is because P. A. is made by a patented process that cuts out the bite! Why, this process has simply revolutionized smoking tobacco.

Prince Albert rolls up the bulkiest makin's cigarette you or any other man ever smoked. It puts the jolt of joy right into your system.

You can just do "makin's" sunrise to sunset and have a lot of fun. Why, P. A. in a cigarette is absolutely a revelation. You go to it!

Prince Albert is the largest seller in the United States. It is now being imported into Canada by wholesale dealers and is sold by all of the leading retail dealers in one-eighty-pound tins.
